Consulting Engineers PTY Ltd

*Between practice and theory lies perfection.*

## About Us

Ingenium Consulting Engineers are committed to delivering excellence in Mechanical and Electrical Engineering, offering innovative and sustainable solutions for infrastructure and building projects.

***At Ingenium, we believe in integrity, collaboration, and continuous improvement. You're not just hiring an engineering firm—you're gaining a trusted partner committed to your long-term success.***

Our vision is to continuously evolve as an engineering company by applying applied science within realistic economic frameworks, ensuring long-term success for you, our team and the environment.

We serve the public and private sectors, including developers, building owners, companies, municipalities and state owned enterprises.

Our services are applicable to offices, factories, hospitals, data centres, and any commercial or industrial infrastructure/buildings.
